

One Teammate Block

- A single rider may be able to block effectively
- Crosswind
 - ◆ Single rider can lead apparent chase in gutter slower than echelon can travel

Strategy & Tactics: Blocking & Gapping

ABC Slide Show

11

ABC Strategy & Tactics: Blocking Slide Show.

A single RED rider blocks for his teammate.

He stays near the front, allowing a rider or two to work, but disrupting a smooth chase.

In this scenario, a crosswind means that many riders are forced into the gutter.

In a crosswind situation, even leading the field (not shown in illustration), riding in the gutter, no riders may wish to come around.
