

Ischial Tuberosity Pain

Saddle Soreness

ABC Slide Show

6

ABC Saddle Soreness Slide Show.

The ischial tuberosities are the sit bones.

The left picture shows a light circle around the ischial tuberosity.

The middle diagram shows a black oval around the ischial tuberosity.

Ischial tuberosity: A

Sacrotuberous ligament: B

Greater trochanter of femur: C

Iliac crest: D

Greater sciatic foramen: E

The X-ray on the right shows a red-oval round ill-defined erosions with adjacent sclerosis at the left ischial tuberosity.
